Description / Explanation of the Program:

Programme is important because Intellectual property is a broad categorical description for the set of intangible assets owned and legally protected by a company or individual from outside use or implementation without consent. An intangible asset is a non-physical asset that a company or person owns.

The concept of intellectual property relates to the fact that certain products of human intellect should be afforded the same protective rights that apply to physical property, which are called tangible assets. Most developed economies have legal measures in place to protect both forms of property.

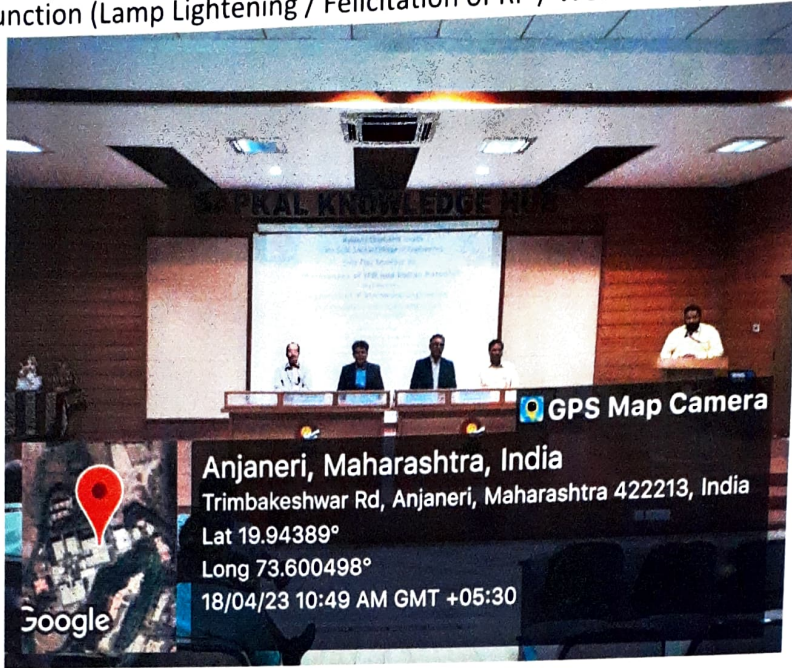

Outcome of the Talk / Event:

1. Participants able to aware of Indian patents.
2. Learn about history about Indian patents.
3. Participants know how to file patent with their innovative ideas and concepts.

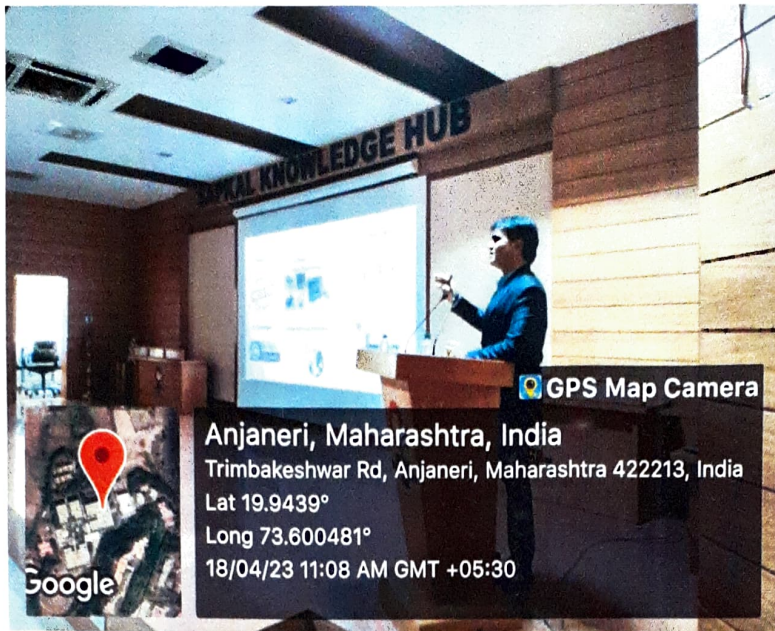

Photographs of the Event:

i. Inaugural Function (Lamp Lightening / Felicitation of RP / Welcome Speech)

ii) Resource Person conducting session

iii. Question and Answer session / Interactive talk
