

# 1. Industrial visit

**Day & Date:** saturday 02/08/2025

**Name of Event:** “Industrial visit for Third Year students”

Artificial Intelligence and Data Science Department LATE. G. N. Sapkal College of Engineering organized an Industrial Visit at “NetLeap IT Training and Solutions, Nashik” for third year students.

Learners got brief idea about the latest trends like waterfall model, Java- Ajax and also awareness about challenges in the market, helping them stay current with a rapidly evolving field. Also, learners gained practical knowledge of software development, testing, and quality assurance techniques that complement classroom knowledge. Industry environment sowed the motivation of pursuing further learning in different software and languages.

## 2. Industrial visit

**Day & Date:** Tuesday 19/08/2025

**Name of Event:** “Industrial visit for Second Year students”

Artificial Intelligence and Data Science Department LATE. G. N. Sapkal College of Engineering organized an Industrial Visit at “**Nashik Engineering Cluster (NEC), Nashik**” for second year students.

During the visit, students were introduced to the role of **Nashik Engineering Cluster** in supporting **MSME industries** through technology upgradation, skill development, and innovation. The NEC officials explained various facilities available at the cluster, including **advanced machining centers, automation systems, quality testing laboratories, and Industry 4.0-enabled solutions.**

**Industrial visit at Nashik Engineering Cluster (NEC), Nashik On 02/08/2025**

### 3. Industrial visit

**Day & Date:** Thursday 25/09/2025

**Name of Event:** “Industrial visit for Third Year students”

Artificial Intelligence and Data Science Department LATE. G. N. Sapkal College of Engineering organized an Industrial Visit at “**Sabedor Software India (SSI), Nashik**” for third year students.

During the visit, the students were briefed about the company profile, its core services, and ongoing projects in the field of **software development, enterprise solutions, and digital transformation**. The industry experts explained the **software development life cycle (SDLC)**, agile methodologies, and the importance of quality assurance and version control in professional environments.

**Industrial visit at Sabedor Software India (SSI), Nashik On 25/09/2025**

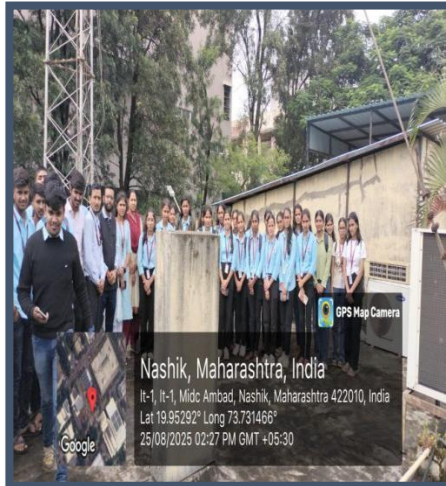

## 4. Industrial visit

**Day & Date:** Monday 25/08/2025

**Name of Event:** “Industrial visit for Second Year students”

Artificial Intelligence and Data Science Department LATE. G. N. Sapkal College of Engineering organized an Industrial Visit at “**Software Technology Parks of India (STPI), Nashik**” for second year students.

Learners got brief idea about the latest trends like waterfall model, Java- Ajax and also awareness about challenges in the market, helping them stay current with a rapidly evolving field. Also, learners gained practical knowledge of software development, testing, and quality assurance techniques that complement classroom knowledge. Industry environment sowed the motivation of pursuing further learning in different software and languages.
