

Program Educational Objectives (PEO)

Program Educational Objectives (PEOs) are broad statements that describe the career and professional accomplishments that engineering graduates are expected to achieve 4 to 5 years after completing the program.

Sr. No.	PEO	PEO Focus	PEO Statements
1.	PEO1	Core Technical Excellence	Graduates will establish themselves as competent professionals by applying core concepts of electrical engineering to analyze, design, and maintain electrical systems in industry, research, and academic settings
2.	PEO2	Ethical, Social, and Global Responsibility	Graduates will exhibit professionalism, ethical behavior, and a commitment to societal and environmental responsibility while working in multidisciplinary teams and contributing to national and global development
3.	PEO3	Professional Growth and Lifelong Learning	Graduates will pursue higher education, certifications, or self-directed learning to continuously enhance their knowledge and stay updated with evolving technologies in electrical and allied engineering domains.
